

Robotic PCI: tips & tricks, challenging anatomies and future perspectives

Tuesday 14 May

17:00 - 18:00

Room 252B

F. Bedogni, MD
IRCCS Policlinico San Donato, Milan, Italy

J. Fajadet, MD
Clinique Pasteur, Toulouse, France

R. Gaston, MD, PhD
Clinique St Augustin, Bordeaux, France

R. Gil, MD, PhD
CSK MSWiA, Warsaw, Poland

M. Haude, MD, PhD
Rheinland Klinikum, Neuss, Germany

S. Verheye, MD, PhD
ZNA Middelheim, Antwerp, Belgium

Agenda

- 1 Session objectives
- 2 Recorded case
IRCCS Policlinico San Donato, Milan, Italy
- 3 My experience with complex cases
CSK MSWiA, Warsaw, Poland
- 4 Last clinical results
- 5 Why should I adopt robotics in my daily practice?
Experience from an early adopter of Da Vinci robot
- 6 A robotic PCI in 2034
- 7 Session evaluation and key learnings

First-in-Man and out-of-the-box innovations hotline

Wednesday 15 May

14:45 - 16:15

Room 243

Robotic tele-surgery stenting
P. Karmakar, MD, National Institute of
Cardiovascular Diseases, Dhaka, Bangladesh

Join us at Booth M18 (Level 2)

**Experience robotic PCI &
get an individual hands-on demonstration!**
